

General Conventions

General Notes:

Name of "Central Statistics Organisation" (CSO) was changed to "Central Informatics Organisation" (CIO) since 2003.

The population is based on Central Population Registry (CPR) August, 2007 adjusted year as for 2007 mid population (1st July 2007). The increase in population in 2007 has direct impacts on rates.

Conventions used in this report to present information in a concise form other than those commonly published in Medical dictionaries.

Language: This publication is written in Arabic and English.

Tables

a) % change:

- unless a negative value is indicated (-) all values are positive. (That is, they indicate a growth or an increase while (-) indicate a decrease. If no values is shown then any change or differences is considered to be insignificant or due to fluctuation rather than trend.
- unless otherwise stated, years compared are the first and last years for which data is provided.

b) Table numbering was illustrated at the top of the page, if more pages needed, the table number will be prefixed with (cont'd table ...).

c) The report contains some un-available data yearly as it based on national surveys or census.
